SUPERIOR SERVICE

"We provide our staff with systems that enable them to effectively manage and quickly complete every customer assignment."

- Robert Blake, CTO

What is Streamline

- The app is a vehicle owner self-photo method to obtain damage photos
- All graphics can be completely customer branded without the need to develop or support the app
- The process takes an owner less than 5 minutes
- Photos can be directed to your staff appraisers for the estimate or we can provide one within 3 hours
- Use of the app can cut cycle time from FNOL to estimate receipt from the average 3 days to a few hours

Dashboard

How Does it Work?

FIRST: Downloading the app is as easy as using it. Any vehicle owner using an Apple or Android phone can quickly download the app from Google Play or Apple's App Store via a direct link or QR code. From download to upload, the entire process takes about five minutes.

SECOND: The interface is a breeze for customers to use. The application all but walks the owner around his or her vehicle, and includes user-friendly photo guides to indicate requested photos. Customers simply snap the relevant photos with their phones and submit them.

FINALLY: Qualified and trained SCA appraisers from across the country can view the photos and one responds with an estimate. This large network of ready appraisers gives SCA the depth of unlimited scalability. It saves travel cost. It saves everyone's time. It saves owner frustration. Customers are empowered to take an active role with their vehicles' inspection and this satisfaction leads to higher NPS and fewer turnovers.
